Studium der Kunstgeschichte in Bukarest, Kultusminister a.D. (1989-1991) und
Aussenminister a.D. (1997-1999) Rumäniens

ARBEITSVORHABEN

Kosmologie des Alten Testaments aus interreligiöser Perspektive

The reading of sacred texts seems to be, today, something reserved either for the specialists (philologists, historians, theologians), or to mere ritual piousness, with no analytical claims. What I would like to try in a book with the title "Old Testament Cosmology from an Inter-Religious Perspective" is a commentary to Genesis, aimed at a reader for whom the text is neither a *réservoir* of "technical problems", nor the strict survival of an outdated mythology. What does the prose of the Old Testament have to say to a contemporary intellectual who has not abandoned religious questions, but who is outside confessional blocks and rudimentary piety? My book will not be about "actualizing" the text (the effort to make science "agree" with faith being, in my view, ridiculously inadequate), but about rethinking and reliving the text, which should prevent it from reaching the - noble and void - status of a museum piece.
